

# PUT YOUR TRUST IN TRUE, LOCAL EXPERTS.

Products proudly designed and manufactured in Canada.

## JET PUMPS

---

# PUMPS THAT MEET YOUR EVERY NEED

---

Innovative and built to last, our jet pumps are precision-designed for optimal and reliable performance. With their smart engineering, they're highly efficient in shallow or deeper wells. Each pump is painstakingly tested at the plant to ensure your total satisfaction.

## TRANSFER PUMPS

### ◊ OC/OCB MODEL

#### HOT OR COLD WATER - CAST IRON BOOSTER PUMP

- ◊ Cast-iron OC Pump with re-enforced Noryl impeller for cold water
- ◊ Cast-iron OC Pump with bronze impeller for hot water
- ◊ Stronger, self-lubricating carbon and ceramic mechanical SEAL
- ◊ Viton O-RINGS resist temperatures of up to 225°F (107°C)

**Applications:** : lawn watering, irrigation systems, booster systems, re-circulation and cooling towers

---

### ◊ SELF-PRIMING PLSH MODEL

#### WHEN HIGHER FLOW RATES ARE NEEDED

- ◊ Self-priming up to 25 feet thanks to a large pump body capacity
- ◊ Self-lubricating carbon and ceramic mechanical seal
- ◊ Cast iron body and mechanical seal plate are treated with anti corrosion paint
- ◊ Available from 3/4 HP up to 2 HP commercial grade, continuous duty motors complete with start capacitor and integrated thermal protection

**Applications:** greenhouses, lawns, gardening, and irrigation

---

### ◊ SSPC MODEL

#### CHOICE 115 V, 208 V, 230 V, 460 V, AND 575 V MOTORS

- ◊ Performance and more efficient than rival models thanks to the ultra-smooth stainless steel precision impeller design

**Application:** High pressure – High Flow in hot or cold water

---

---

# OUR PREMIUM JET PUMPS

---

## Our jet pumps come with:

- ◊ High-performance re-enforced Noryl impeller
- ◊ Stronger, self-lubricating carbon and ceramic mechanical seal
- ◊ 0-100 PSI pressure gauge
- ◊ Closed-grained grey-iron body and mechanical seal plate with anti corrosion paint is standard on all our jet pumps
- ◊ Stainless steel plugs and pressure line fittings
- ◊ Stainless steel motor shaft

## CONVERTIBLE INJECTION PUMPS - Surface wells of up to 25 feet and deep wells of up to 100 feet

### ◊ MJ MODEL

#### TOP OF THE LINE PERFORMANCE

- ◊ Greater capacity
- ◊ Threaded Impeller to motor shaft eliminates vibrations
- ◊ Innovative heat resistant stainless-steel diffuser plate for easy maintenance

**Applications:** wells, streams, ponds, lakes, and more

---

### ◊ MODEL PJC

#### GREAT VALUE VERSITILITY

- ◊ Convertible jet pump for shallow or deep wells
- ◊ Moulded PC diffuser, the ejector body & nozzles are included for shallow or deep wells
- ◊ Optional Single pipe jet package with 2 inch casing adaptor

**Applications:** wells, streams, ponds, lakes, homes, and more

---

### ◊ MODEL PSW

#### SURFACE WELLS ONLY, UP TO 25 FEET MAX.

- ◊ Moulded PC diffuser
- ◊ Stainless Steel Injector nozzle

**Application:** homes & Cottages

# POMPCO: PROUDLY SERVING YOU FOR OVER 40 YEARS

---

Pompcos reputation for quality and reliability started in 1977. The company designs, manufactures and sells a wide range of pumps that meet or exceed the highest standards of well drillers and professional pump installers.

At Pompcos, we build our pumps to meet or exceed exceptional performance that will last for many years. We're proud to design products that are among the most reliable in the industry, backed by solid warranties. We also have the knowledge and capability to custom design pumps to meet your every need. We also custom design pumps for various industries.

## RELIABLE PRODUCTS, OUTSTANDING SERVICE

Trust Pompcos to provide exceptional service and personalized technical support. Our products are manufactured here in Canada, which means you'll receive them fast and you'll never have trouble ordering spare parts—that's part of our guarantee!

## SEE OUR FULL RANGE OF PRODUCTS

- ◊ Piston pumps
- ◊ Jet pumps
- ◊ Submersible well pumps
- ◊ Constant pressure systems
- ◊ Transfer pumps (water and maple syrup)
- ◊ Booster and high-pressure pumps
