# INTRODUCING OUR NEW FLS AND FLT SUBMERSIBLE PUMPS

---

Our new stainless steel FLS pumps and thermoplastic FLT pumps feature an improved design that delivers better performance and durability, for pumps that pass the most stringent long-term-reliability tests with flying colors. Choose from a selection of high-performance products built to withstand abrasion and thermal shock.

## FEATURES

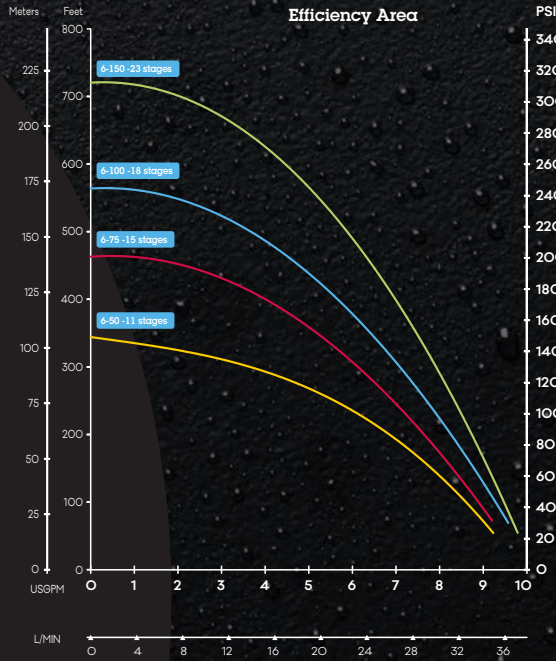

---

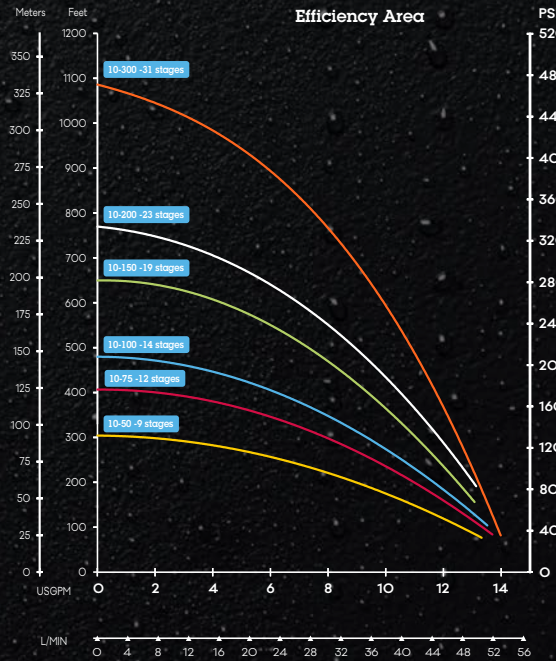

- 1 External 304 stainless steel check valve
- 2 304 stainless steel head
- 3 Top bearing support: rubber sleeve reduces sand wear
- 4 Improved performance and abrasion resistance thanks to the self-lubricating acetal floating impeller design
- 5 Color-coded impeller for easy identification of 6 gpm, 10 gpm, 15 gpm, and 25 gpm pumps
- 6 Polished stainless-steel resistant wear ring dissipates heat
- 7 Ultra-abrasion-resistant wear rings with a separate bearing at each stage will reduce pressure loss
- 8 New nylon fiber diffusers provide high-performance and resist thermal shock
- 9 Machined and threaded chambers for easier maintenance or repair
- 10 304 stainless steel bracket
