PISTON PUMPS

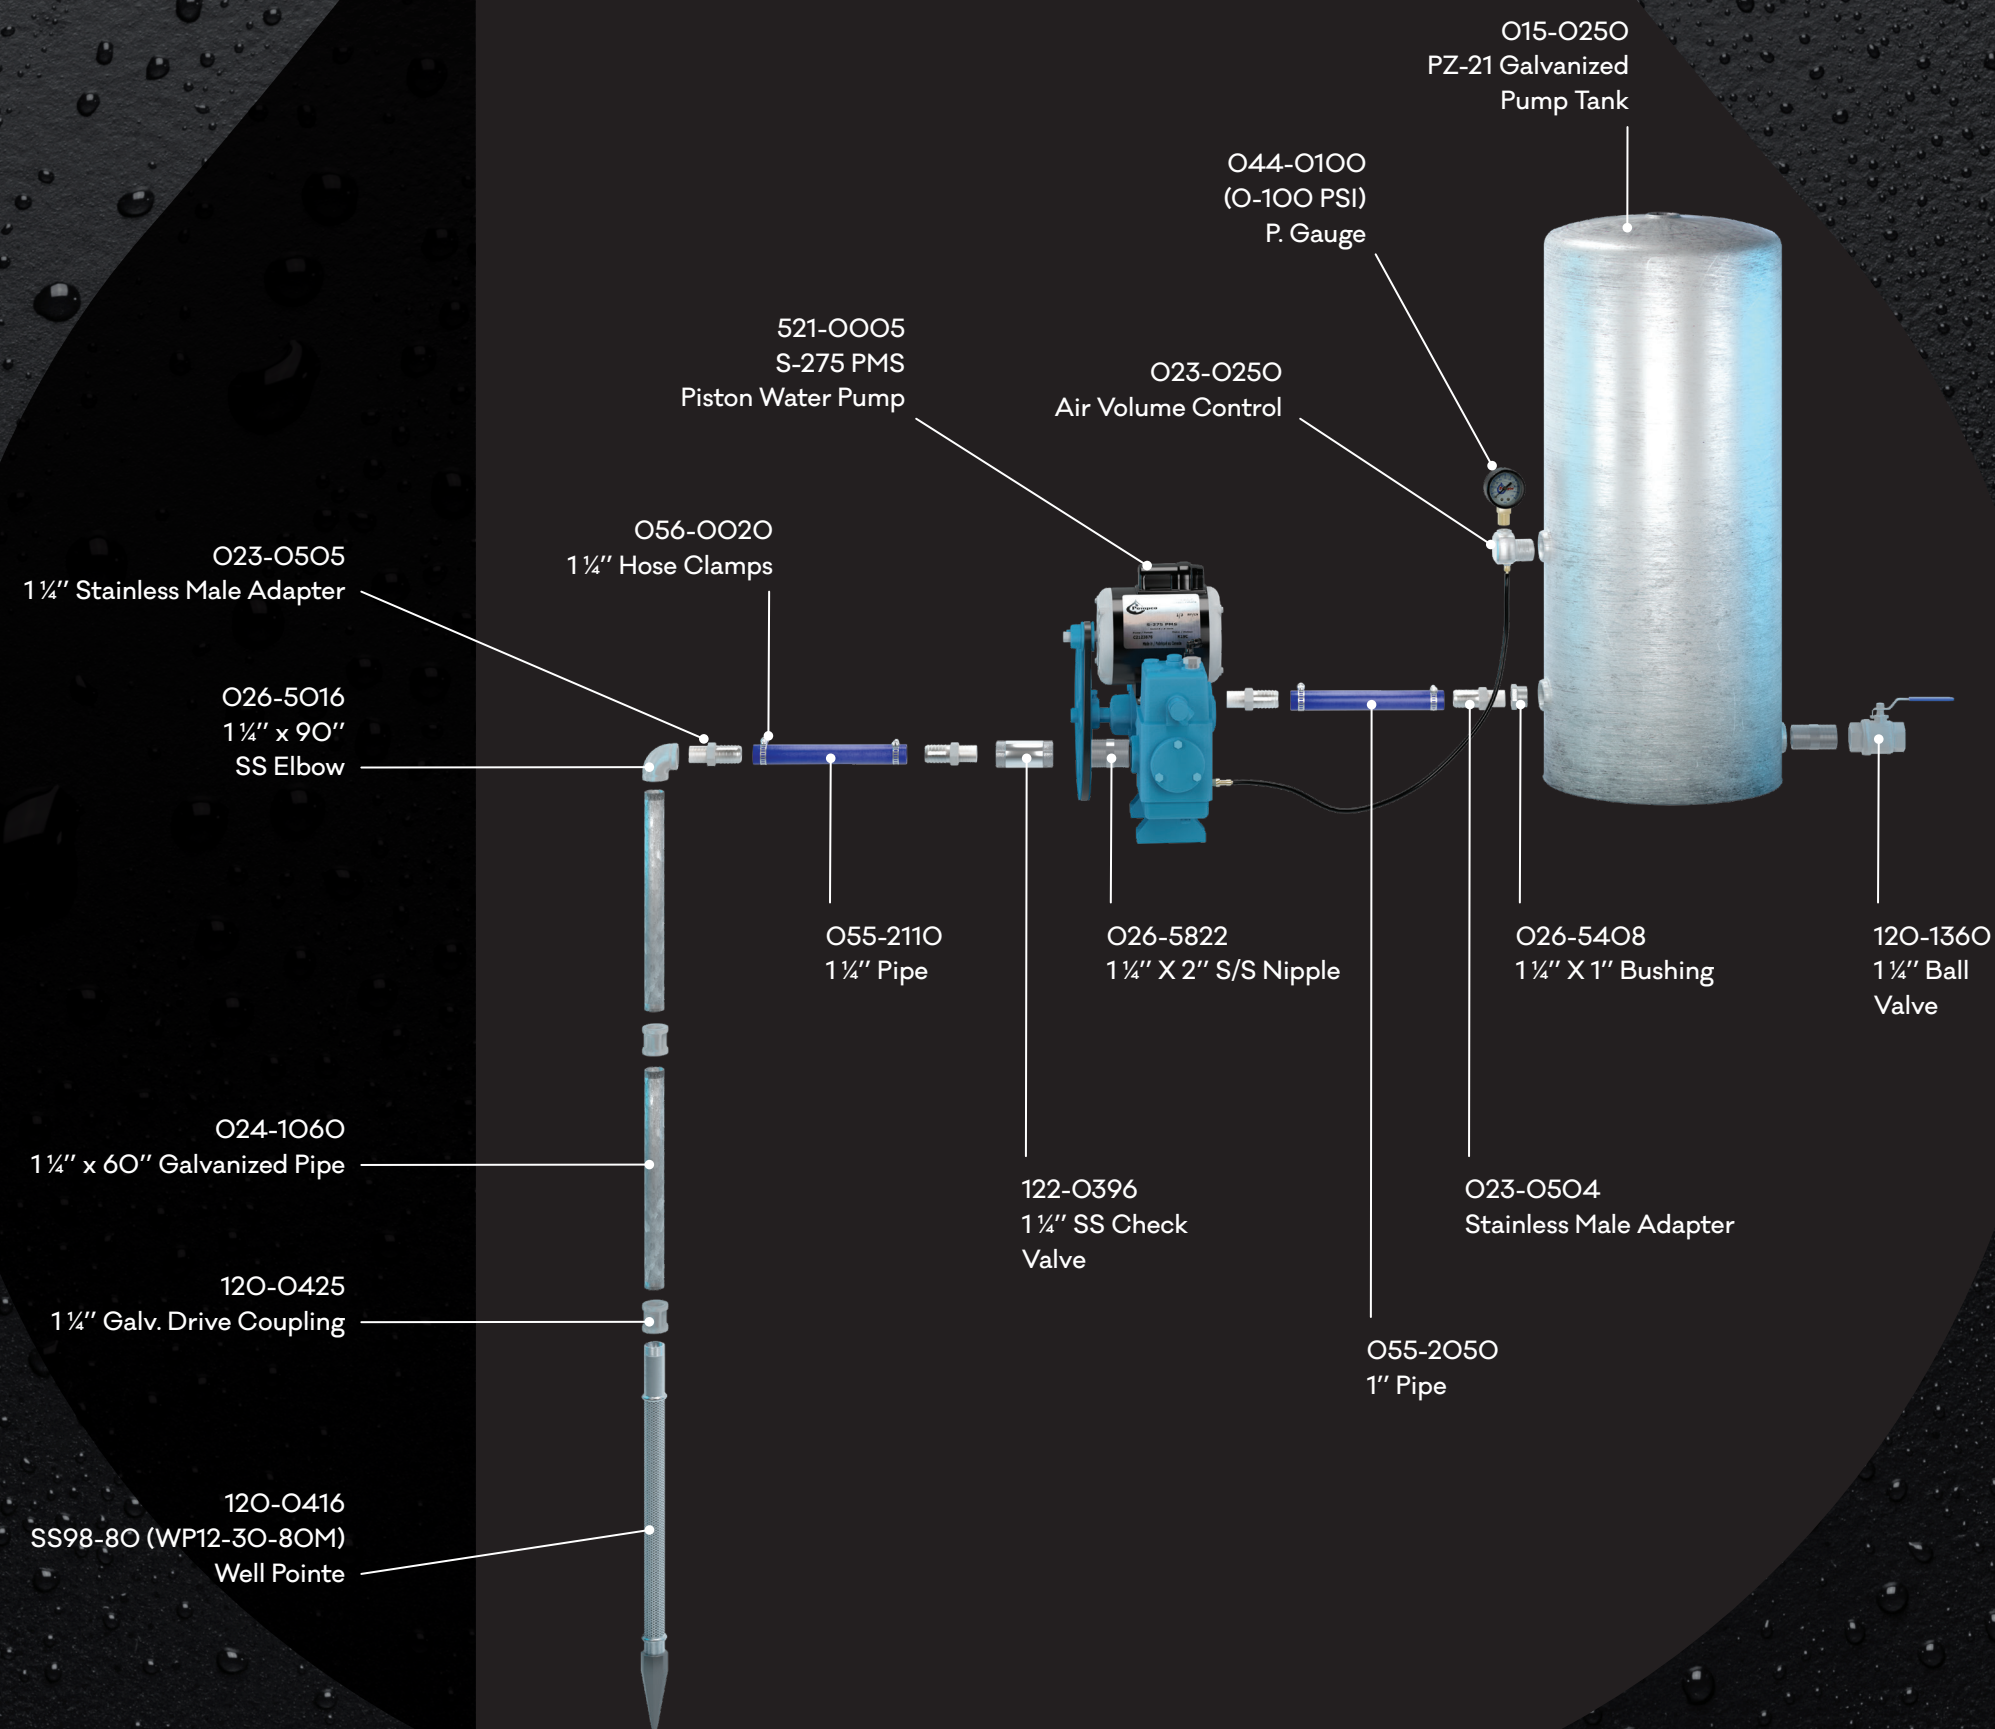

ADVANTAGES OF POMPCO PISTON PUMPS

Reliable and durable, PompcO's renowned pumps have stood the test of time. Maintained and used properly, they can keep going for over 50 years without a hitch.

- ◊ Shallow wells and well points
- ◊ Farms, homes, cottages, or irrigation systems
- ◊ Simple and easy to maintain
- ◊ Dry run capability – handles air without issues
- ◊ Continuous efficiency at various pressures
- ◊ Sand and particle resistance
- ◊ Self-priming up to 25ft.
- ◊ Double action piston in one single cylinder
- ◊ 100 PSI safety valve
- ◊ Every pump is factory tested
- ◊ Repair kits available for all pumps

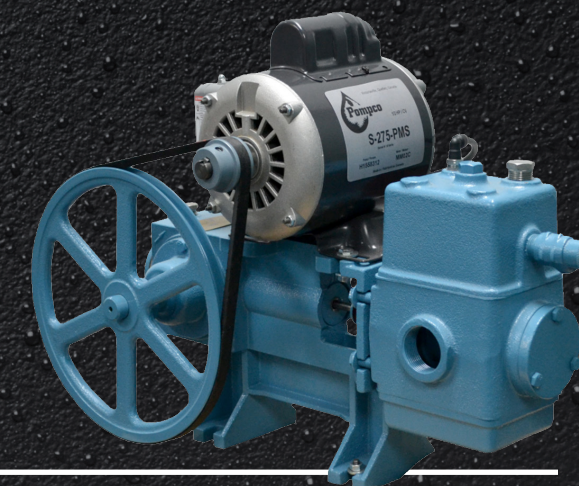

PISTON PUMPS

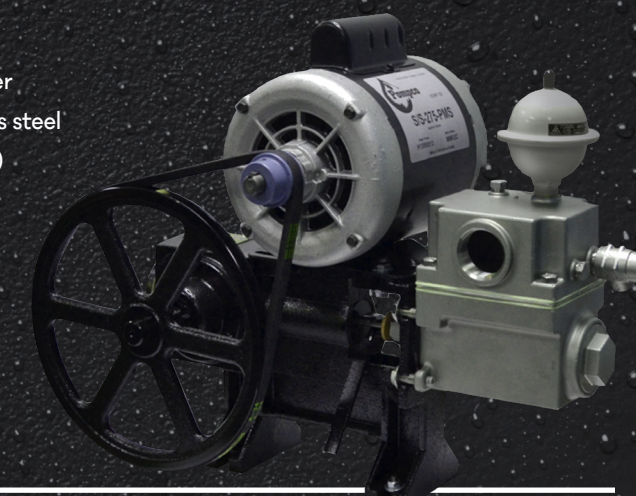

CAST IRON

- Available in 2 models: S-275 (275 gallons/hour) and S-600 (600 gallons/hour)
- Pump package includes; pump, motor, 30/50 PSI pressure switch & safety valve
- Bare pump available without motor or pressure switch
- Cast iron, bronze and stainless-steel components
- 1/3 CV (115 V) or 1/2 CV (115 V or 230 V) 1 phase or 3 phase motor
- Motor with capacitor start and thermal overload protection

STAINLESS STEEL

- Ideal for pumping maple sap and hot or cold maple syrup or water
- Parts in contact with liquids made entirely of 304 grade stainless steel
- Heat resistant NYLON valves and cups (syrup/hot water version)
- Rubber valves and leather cups (cold water version)
- Available in 2 models: S-275 (275 gallons/hour) and S-600 (600 gallons/hour)
- Pressure switch included when ordered w/motor (cold water version only)
- Pumps can be ordered without motor
- Pulsation dampener included with syrup pumps (reduces vibration w/filter press)

SOLAR (12 VOLTS)

- Ideal for homes and cottages in remote regions
- Resistant to weather, UV radiation and temperature variations
- Environmentally friendly; green renewable energy source is non-polluting
- Easy installation, low operating cost and minimal maintenance
- 1/3 CV motor (12 volts/27 amps)
- 30-50 PSI pressure switch specifically designed for 12 volts, are factory set
- One model available: S-275 (275 gallons/hour) max 50 psi
